To MR. JOHN CALLAND
AT CUDDALORE.

SIR

We have received your Letter dated the 15th. Instant enclosing the Accounts of your Settlement for last Month.

On looking over your Accounts We observe you charge 5 Pagodas a Month for House Rent. You are to have the same Allowances as Mr. Turner the late Chief from the end of September from which time therefore the said Charge of House Rent is to be deducted.

You must in future have a seperate Head of HOSPITAL CHARGES and not bring them to account under Charges General as we observed you have heretofore done, at the End of the Year they may be carried to Charges General.

In your Hospital Accounts there is one Andrew Pilot a French Prisoner charged which should have been placed under the Head of French Prisoners, but you will acquaint us how he came to be at Cuddalore.

We remark likewise that a Charge is made for digging a Grave for an European Soldier—this ought to have been and must in future be defrayed out of his own pay, and for that purpose, if a non Commissioned Officer or private Man dies on or before the 15th. of the Month he is to be struck off the Roll at the end of the Month, but if he dies after the 15th. he is to be continued on the Roll for the next Month in order to provide for the funeral Charges.

When the Neptune Schooner arrives at Cuddalore you will send by her such Bales as you may have in readiness and the rest are to be forwarded to us by the Pitt which will be ordered to call at Cuddalore for that purpose on her return from Tondy whether she will shortly be dispatched with Stores.

In regard to the Turned out Cloth remaining in your Godowns such as you think may be taken at the abated Price you will receive and return the rest to the Merchants charging them with a double custum of ten ℔ Cent agreably to the established practice. We are

No. 8.

TO JOHN SMITH ESQR.
CHIEF &CA. COUNCIL AT VIZAGAPATAM.

GENTLEMEN

We have received your Letter dated the 3d. Instant.

As you represent the Necessity of repairing the Guard Houses to shelter the Men from the Inclemencies of the Weather you have our permission to make such and such only as may be absolutely necessary for that purpose in which you are to observe the utmost frugality and here we must remark that when the Seapoys in this Garrison are not upon Guard they contrive to provide themselves with Hutts to live in, so that the Guard Houses are only intended to be made use of when they are on Duty.

We had better put up with the Loss of the Cloth than be at the Expence of keeping a Vessel to bring it away in case your Settlement should be attacked. We only meant that you should take every precaution in your power to secure the Companys effects in case there should be a prospect of such an Event which we hope will not be the case.

We shall send you in a few days a List of the Investment to be provided this year at your settlement with the necessary Directions on that subject for your guidance.

With respect to servants if at anytime more packers are necessary whilst your Cloth is embaling you may hire so many and no more and discharge them immediately after but for your present Investment We fear the two Packers allowed will be quite sufficient to serve for Cooleys in sorting the Cloth.

The Establishment for the Expences of your Settlement was made when Mr. Pigot was at the Board who thought it fully sufficient and of which he must have been a Competent Judge from his long Residence at Vizagapatam. You are not therefore to expect any further allowance of servants except when you shall make it appear to be indispensibly necessary for conducting the business of your Settlement which at present is reduced to a very narrow compass and with respect to your particular application for Coneycoplys in your Letter of the 9th. October last We are of opinion that the Company's Business would always be much better carried on without them where the Services can be dispensed with.

A Surgeon shall be appointed to your Settlement as you desire.

In answer to the application made in your Letter of the 23d. September concerning Mr. Smith's Allowances, as Mr. Heath continued in the Chief-ship of Vizagapatam some time after Mr. Smith's arrival there, he can only be entitled to his usual Allowances during that Period.

Mr. John Smith has already had Notice from our Secretary of his being appointed of Council in consequence of the Vacancy occasioned by the Departure of Mr. Pigot the late President for England and the Death of Mr. Heath which happened on the 18th. Instant having made another Vacancy Mr. Stratton was appointed a Member of the Board and he is therefore to take the first convenient opportunity of coming to Madras. We are

To the Honble Roger Carter Esqr.
President and Governor &ca. Council
of Fort Marlbrough.

Honble Sir & Sirs

Your Favor of the 4th. June by way of Batavia we have receiv'd in Triplicate.

We hope the Leopard & Syren Snow also the Ship Prince Henry & Snow Luconia which call'd here in their way from Bombay arriv'd safely at Fort Marlbro' with the supply's sent you last season, as we observe your demands were pressing we wish it had been in our power to have given the two former an earlier Dispatch more Effectually to have prevented your Wants, which we shall allways with the greatest chearfullness endeavor to do to the utmost of our power.

The President and Council of Fort William having dispatched the Lord Clive to Us with the Supplies you requested from them for your Settlement we have put on Board her the several Articles of Your Annual Indent as ℔ Invoice & Bill of Lading enclosed. the former amounting to Pags. 6426–19–64.

As you requested a supply of Black Cattle in your Letter of the 18th. Octor. 1762 We have Directed Capt. Webber to call at Cuddalore, and there to take in as many as he can conveniently carry, Mr. Calland will Advise you of the Number.

The several certificates mentioned in your Letter of the 4th. of June shall be duely paid when tender'd.

We have the pleasure to acquaint you that since our Advises of the 31st. July all the Ships of last Season destin'd to this side of India not then arriv'd are safely imported.

Twelve Bells sent out on the Pitt for Your Presidency are now forwarded and included in the General Invoice.

Inclosed is Extract of our Honble Master's Letter concerning the Lord Clive, we wish we had been able to supply her with a Stock for China, which the great scarcity of silver on this coast and Bengal puts out of our power, but if by any means your Honor &ca. can provide her, it will be a very acceptable service the the [*sic*] Troubles in Bengal having depriv'd the Company this season of two Ship's cargoes. If it shou'd be in your Powers to take up any Silver for China We will answer any Bills you may draw on Us.

The Ships dispatch'd for Europe from Bengal this Season. are the Boscawen, Osterly, Royal George & Pigot, We have a full Lading for the Deptford daily Expected from thence; The Ships remaining in hand will then be five in Number vizt. The British King, Earl of Midlesex, Lord Mansfield,

Winchelsea, and the Admiral Pocock Expected from Manilha. The Earl of Middlesex will perhaps be Dispatch'd to Tellicherry to fill up there, but we cannot yet say how the others will be Disposed of.

The Pitt did not arrive with us 'till the 7th. January and having sprung her Mainmast in her passage which in case a New one cannot be found to the Southward must be properly secured before she can go to Sea. She cannot therefore at present prosicute the Voyage pointed out for her by our Honble Masters with a Design of Improving the Discoveries made of the New passage to China by Captn. Wilson in the Pitts former Voyage.

We send in this ship three Delinquents and two Slaves whose Names are inserted in the List Enclosed.

Enclos'd is a Packet from the President and Council of Fort William for your Presidency.

We forward herewith two packets from the Honble Court of Directors receiv'd by the Lapwing Snow & Pitt. We had also one for your Presidency by the Pigot which being only Duplicate of that ℔ Lapwing is forwarded by Capt. Olephant, who carries Duplicate of these Advices & of the Letter Addressed to you from Bengal.

Mr. Pigot having Embarked for England in the Plassey the 14th. of Novr. Mr. Palk succeeded him in the Government of this Presidency.

GENTLEMEN

We have receiv'd your Letter dated the 13th. Ultimo with Accots. & papers mention'd to be Enclosed.

Your Account of the Charge of Packing the Company's Bales at Vizagapatam having been referred to the Export Warehousekeeper, he has compared it with the Charge of Packing at this Settlement, a Statement of which is inclosed by which you will observe that the Quantity of Packing stuff for each VIZAGAPATAM Bale exceeds what is made use of here, except in the Article of Cotton & that the Quantity alloted with you to each Bale more than is used here, after allowing for the difference in the article of Cotton amounting to fannams 16-75 which being Deducted from your Estimate of the cost of each Bale will reduce it to Pags. 1–29–44 And as the Quantity of Packing stuff made use of here is judged to be fully sufficient yours may be done in the same manner & We think that your Export Warehousekeeper may undertake it on the Terms as at this Place of two Current Pagodas ℔ Bale.

HONBLE SIR & SIRS

We wrote to you by the Lord Clive the 4th. of February, of which a Duplicate was forwarded by the Mary Snow, & We take this Opportunity of Transmitting to you Triplicate of those advices.

The several Articles of your Annual Indent were sent ℔ the Lord Clive. If you should have occasion this season for any further supplies We hope your advices will be in time for us to forward them by the Bute, which We are informed by a Letter from Mr. Van Sittart to our President is intended to call here in her way to Batavia, for a supply of Timber & Plank.

We have received by a Macao Ship, arrived in the Mallabar Coast, a Letter from the SupraCargoes at Canton dated the 8th. of November, wherein they acquaint Us that they expected at the Departure of their last years shipping to Contract a debt of 6,0000 Tales & that they should want £ 400,000 for the ships they Expect the ensuing year. As the supply's which can be raised here, & at Bengal, this season will be very inconsiderable, We fear

that our Honble Masters will be greatly disappointed in their China Investment, unless they send out Treasure with ye. ships from Europe, which We very strongly recommended to them foreseeing that India cou'd not long be depended on, to furnish the necessary supplies for that Purpose.

It is with great concern We hear that the Earl Temple, is supposed to have been lost on the Coast of Manilha after her Departure from Batavia in May last.

Mr. Tierney who was a Hostage for the Gentlemen made Prisoners at the Capture of Fort Marlborough being lately arriv'd from the French Islands, has applied to us for an advance of a Thousand Pagodas, which We have Complied with & debted your Presidency for the same. By the Bandermalanka Sloop we receiv'd the Bales you consign'd to us on the Honble Company's Account; The observations made upon Examining the Quality of those Goods we send you Inclosed for your Guidance in the Provision of Your Investments for this Year.

We cannot in Justice to Mr. Dolben avoid mentioning that We are well pleas'd with the attention, that he has given to the Provision of the Bandarmalanka Investment, & we doubt not But he will continue to Exert his utmost endeavours to improve & increase it as much as possible.

The Country Vessell on which You consign'd to us Twenty four Bales of Brown Cloth not being able to reach this Place, before the southerly Winds sett in Strong anchored Near Cattiwauck from whence the Bales have been brought hither in Massootahs; The Vessell proving leaky some of the Pieces of the Cloth were found damaged & have been deliver'd to your attorney here from whom their amount have been received.

A list of Goods to be provided at your Settlement & at Bandarmalanka for the present Year We transmitt you Inclosed. The directions contain'd therein must be attended to as strictly as possible.

We must particularly recommend to your Attention the improvement of the Quality & dye of the Chay Goods which you will observe by the remarks made on those receiv'd by the Sloop Bandarmalanka are not so good as those before Provided, The Superior quality of which & there being more reasonable than formerly was our chief motive for ordering a larger Quantity of them than had been usual.

We are of oppinion [*sic*] that the indulgence We have granted our Merchants of taking in such of their Cloth as may be rejected for being of an inferior quality to the Musters, at an abatement of Ten ℔ Ct. may be a means of increasing Your Investment & You have therefore our Permission to acquaint Your Merchants, That if they will send up their Cloth turn'd Out on that Accot. of the proper Lengths, and Breadths, either brown or white at their Own Risk. It shall be resorted here & such part as we may judge to be proper for the Companys Use, We will accept at the aforemention'd abatement which are the Terms the Merchants here, & at Cuddalore have agreed to, such part as may be totally rejected shall be deliver'd to their Agents here to be disposed of on their Own Accounts.

Ten Washing Stones of the Number You Indent'd for which are the same as are made use of here, are now sent You on the Dilligent, Your Ten more shall be forwarded by some future Conveyance.

As the Cowles for several of the Farms dependent on Mazulipatam will expire the 31st. of May next you will Advertize for Proposals to re-let them from that Period for a Term of five years, & send up to us such as You may receive in consequence by the 10th. of May for our determination with the best account You can procure of the several bidders; We are encouraged to hope from this letting your Farms for a Term of Years the Revenues will be very considerably increas'd.

P.S. Upon examining the Brown and half-washed Cloths recēd. by the Sloop Bandarmalanka to deliver to the Washers, several pieces were found to have holes in them which must have happened before they were Pack't except three pieces which seems to have been damaged by the Packg. Needle as there was no other appearance of damage on the Bales, we must desire You will recommend to Mr. Dolben to be carefull that this does not happen again, & as the Cloth can be of no use to the Company, You will please to acquaint him, he must order his Attorney to receive it of the Warehousekeeper & Pay the Compy. what they have been charged for it; An Account of the several Pieces damaged You [*sic*] have inclos'd.

A Bale or two of different sorts of Romalls both Coarse and fine & a Bale of Ordinary Ginghams of different broad strips & of a bright Chay, may be provided for Tryall and a few of any sorts of Goods Mr. Pybus may think will do for Europe.

The Madras Ginghams are 16 Covids long & two Covids broad and wove of four threads, If those provided at Mazulipatam could be made of the same dimensions & texture at a proportionable advance in the Price to what those last sent cost, they would be most acceptable.

All the settlements are directed to Transmitt annually on [*sic*] Account Drawn on Collumns Vizt. the first specifying the Quantity Order'd, the second the Quantity sent & the 3d. the reason drawn Concisely why the Orders could not be complied with.

The Chay Goods recēd. by the Sloop Bandarmalanka in General are not so good either in quality or dye as what have been before provided as our chief motive for ordering a large quantity last year than before was their being much superior to what were formerly provided as well as cheaper, great care must be taken that they are made of equal goodness to the Muster in every respect.

No. 35.

TO JOHN SMITH ESQR.
CHIEF &CA. COUNCIL AT VIZAGAPATAM.

GENTLEMEN

A few Bales of the Cargoe You consigned Us by the Ship Union being taken out of her Wreck and rewashed has given Us an oppertunity to Examine the Quality of the Cloth, The remarks thereon we transmitt You enclosed and cannot avoid taking notice, that in general this cloth is very indifferent and much inferior to what was formerly provided at Your Settlement; The difference between Your Investment and that at Bandarmalanka is inconceivable.

In our several Letters of last Year You were fully acquainted with our Intentions in regard to the method of providing Your Investment which we are concern'd to observe You have not yet been able to Comply with, from the obstinacy of your Merchants their conduct herein is very unaccountable to us, for we are well assur'd they must reap a greater advantage from the Prices they are now allowed, than they did at the rates they contracted with the Chiefs on formerly; We cannot therefore doubt but there must be some latent Cause for there acting so Mysteriously, which We most Earnestly recommend to You to use Your utmost endeavors to discover which probably may be the means of establishing Your Investment again on the advantagious footing It formerly was to Our Hon'ble Masters; but we can entertain no favorable hopes of it as long as Your Merchants persists in behaving as they have done of late & which if they continue to do the advantages arrising from Your investment will not be adiquate to the Expences of Your Settlement that it will be more for the Honble Company's Interest to withdraw the Factory than to carry on any Trade there.

Amongst the Musters which Mr. Smith carryed with him from hence, were some Moories Fine & Ordinary, & a Piece of Lampasses for Chintz, such as we make use of here for Painting, We now send You also (by Captn. Forrest in a Parcel) of each sort one Piece more. The Chintz Ordered by our Honble Masters in the List of Investments You will herewith receive, You will order to be Painted on Cloth as nearly of the same Sorts as these Musters as Possible. As soon as We have sorted and Embaled the Chintz We are Preparing to go on in the Deptford We will furnish You by the first conveyance afterwards with some of our Patterns, in the mean time You may make use of such Patterns as you are Provided with.

Our Honble Masters in their List of Investments having order'd some Beeteelas Plain & Flowered such as were sent them by the Eastcourt in the Year 1756. Upon reference to our Invoice by that ship it Appears those Goods were Provided by the Chief of Ingeram but we understand were Manufactured at Upparra, the Prices they were than Invoiced for were as follows.

BETEELAS of 2 Covids Plain, 2 Covids Wide, & 31 Covids Long at Pagodas 92 ℔ Corge.
DITTO. of 2 Covs. Flower'd 2 Covs. Wide, & 31 Covs. Long at Pagodas 120 ℔ Corge.

If you can Provide them at the same Prices we would have you Provide the quantity order'd in the List of Investment, as well as the Bordered Handkerchiefs, if they can be done in the manner & in the Terms therein recommended.

As we are desirous of trying every Method of Increasing the Investment, we Imagine were we to allow Your Merchants the same Indulgence as We have ours here & at Cuddalore of accepting their turn'd out Cloth of full Measure at an Abatement, It may be a Means of Obtaining a much larger Quantity than You have yet been able to Procure, & put a Stop in some degree to their carrying all that is rejected by You, as is alledged, to the Dutch. You have our permission therefore to acquaint Your Merchants that if they will send Up their Cloth that may be turn'd out for being inferior in quality to the Musters, but of the proper dimensions, Either Brown or White at their own Risk, it shall be resorted here, and such part as we Judge may be proper for the Companys Use we will take it at an abatement of Ten ℔ Cent which are the Terms the Merchants here and at Cuddalore have agreed to. Such part as may be totally rejected shall be delivered to their Agents here to be disposed of on their own Account.

We have appointed Mr. William Barker to fill up the Vacancy at Your Settlement occasion'd by the Removal of Mr. Stratton to the Presidency and as Mr. Smith has applied to the President for leave to come hither for a short time he has our permition.

In consequence of Your Application for a Surgeon Mr. Raine now proceeds to Mazulipatam from hence, either he or Mr. Smith will repair to Your Settlement.

We take this oppertunity of forwarding a part of Your Indent agreeable to an Invoice & Bill of Lading Enclosed.

Your Letter of the 6th. Inst. has been duely reced.

It is observed of the above Cloth, that the greatest part is little more than Two Covids wide & tho' great allowance may be made, for its having lain sometime in Salt Water & been rewashed which may have occasion'd it to shrink something Yet from it's being so much narrower than it ought to be There is room to beleive it was not of its proper breadth 2¼ when first taken in Brown, Great care must be taken as to this particular & to keep the Cloths up to other proper Measure.

If any Plain Beteelas of the Quality of those procur'd of two Covids wide can be made into Handkerchiefs and bordered so as to be exactly square, taking care the borders are a little varied, You may send two Hundred Pieces (200).

The Greatest care must be taken that the Goods of all sorts be of the proper measure & if the Merchants can be prevail'd upon, to make the different sortments of the Cloths of the Number of Punjums before recommended, It will be most agreeable.

A few Bales of each sort of Cloth must be sent to Europe without Conjee, & must be particularly distinguished in the Invoice.

A few Chints were provided at Vizagapatam in the Year 1755 which were much liked in Europe, You are therefore directed to encourage the Painting of more of the same kind, observing that they be done with a Variaty of large Beautifull Patterns & ⅓ part of different Grounds & the Colour very lively.

TO MESSRS. THOMAS FITZHUGH, SAMUEL BLOUNT, NATHANIEL GARLAND ALEXANDER HUME, MANN HORNER, THOMAS SMITH & WILLIAM ROUS SUPRA CARGOES OF COUNCIL AT CANTON.

GENTLEMEN

We take this opportunity by the ship Bon Voyage to acknowledge the Receipt of your Letter dated the 8th. November 1762 which came to hand the 7th. of February. It is with much concern we observe you will require so large a stock for the occasions of your Investments the Ensuing season, as the great scarcety of Silver puts it so much out of our power, that all we have been able to procure to this time does not exceed 25000 Rupees, We are therefore Making purchases of Merchandize for your Markett and have acquainted the Presidencys of Bengal and Bombay with your situation that they may contribute all the Assistance in there power. The Gentlemen at Bengal acquaint us they shall dispatch the British King to you with a Cargo of Cotten, Lead and Fifty Thousand Rupees which they hope will turn out a sufficient stock to provide her with a Cargo for Europe.

The Pitt did not arrive with us till the 7th. January and as she had sprung her Mainmast & was too late to prosecute the voyage pointed out for her by our Honble Masters, We thought it best to employ her on the Coast untill the favourable season offerd for sending her to China by the Common Track, We shall dispatch her in a few Days for Manilha from whence she is to proceed to Canton with a Consignment of Tin. We had intended 80 Tons of Pepper, some Cotton, and the Silver abovementioned, but as she may be wanted to bring the Troops back from Manilha We have detained all but the aforesaid Quantity of Tin which shall be forwarded by the First ship.

The Lord Clive was Dispatch'd to Fort Marlborough the beginning of February with Stores for the use of that settlement and we were in hopes that the Gentlemen there might be able to provide her with a stock for China but we were in hopes that the Gentlemen there might be able to provide her with a stock for China [*sic*], but we fear that may not be the Case, as by a Letter since receiv'd from them We find they were greatly distress'd for Cash, to answer the occasions of there Pepper Investment.

We represented to the Company in our Letter by the Clinton in June last that it wou'd be impossible to continue from India the supplies required for the China Trade and we hope those Advices will reach them in Time to Assist you with Treasure from Europe by the Ships of this season and early in September we dispatch'd home the Lapwing on purpose to repeat the same Advises.

His Majestys Ship the Panther arrived here from Batavia the Third Instant having lost her passage last season to Manilha, for which Place she sail'd hence the 23d. August, The same Misfortune happened to the Revenge which saild for Manilha at the same Time, and both bore away for Batavia from whence Capt. Watson in the Revenge sail'd the 13th. Decembr. for Manilha by the Pitts Passage, from Batavia we also learn that the Glatton & Pocock not being able to gain there passage put in there in November and intended prosecuting their Voyage by the Pitts Track.

If we shou'd receive no further advices from Mr. Dalrymple before the time of the Departure of the Ships for China, We shall consider of the Expediency of ordering one of them to call at Sooloo for the Goods Mr. Dalrymple may have left there to be dispos'd of at Canton.

You are hereby ordered to repair on board your Ship, and make the best of your way to the Port of Manilha where on your arrival you are to deliver the accompanying Packet to the Deputy Gov^{r}. &c^{a}. Council there whose orders you are to follow for your future proceedings.

AT CUDDALORE.

SIR

The Bales of your Investment receiv'd by the Pitt having been Examined as well as your Merchants turn'd out and Brown Cloth lately sent up hither, we now enclose to you the Remarks which have been made thereon.

From hence it appears that the Merch^{ts}. have by no means had Justice done them in Regard to the Rejected Cloth, as besides that a part of it seems to be of a proper Quality to be taken in at the abatement of 10 p^{r}. Cent, the Companys Chop has been stampt'd in the Middle of many of the Peices which must evidently be detrimental to the sale of it, and being also Contrary to the usual custom it coul'd hardly have been Done through Inadvertency. In this Instance therefore they have had reason to complain and to make them amends for such Treatment, which we cannot but highly disapprove, We think it but reasonable to exact from them only 5 p^{r}. C^{t}. on the whole of the Turn'd out Cloth instead of 10 p^{r}. C^{t}. which you are to attend to and settle with them accordingly.

We send you enclosed a List of the Investment to be provided at your settlement this season, also the Particulars of the New Contracts we have made & the Persons we have engaged with, You must draw out the Contracts to be executed by them agreable thereto, and after the Form enclosed which is the same our merchants have signed. They are to be advanced one fourth part of the amount of the Investment upon their Executing them. You must also be mindfull to have all their accounts of the Last Years Investment adjusted & to receive of them any Ballances they may be indebted on that Account.

As we understand that two of the Coneycoplies in your Export Warehouse named Padmanabeyah & Parvadah Rajah are nearly related to Streeshelle putte with whom we have contracted for a part of this years Investment we think that such a Connection may be attended with many ill consequences and therefore direct that the said two Coneycoplys be no longer Employ'd in the Export Warehouse. We are come to a Resolution also, that any person employ'd as a Companys Merchant, shall not serve in Character as Dubash or Broker, as we understand they have done during the Term of their Contract with the Honble Company. And you must be attentive to see this is strictly complied with. We do not by any means approve of the proposal made in your Letter of the 16th. of March for the Dyers of the Blue Cloth to be under the Management of the Warehousekeeper which you will observe by the contract made with the Merchants for the present Investment is to be on the same Footing it was last year.

We have not rec'd from your Settlement as ordered in the Last Years List of Investment an Account drawn in Columns The First Specifying the Quantity ordered the second the Quantity sent and the Third the Reasons consicely drawn why the orders coud not be complied with. Our Honble Masters Expect this from us annually & you must send us such an Account of your Last Years Investment as soon as possible.

Enclosed is Copy of a Paragraph from a Report of the Committee of Accounts, relating to the Method of keeping your Books and accounts, and we have ordered an Ingeram Journal and Ledger to be sent to you for a Model according to which you are to carry on those of Cuddalore from the 1st. Gentlemen

Since writing to you under Date ye. 11th. & 12th. of last Month, we have receiv'd your Letters by the Sabut Jung of the 17th. & 25th. of February with the several Papers accompanying the Former.

The Bills you have drawn upon us, we shall duely Honor as they are tenterd for payment and we wish it had been in Your Power to draw on us for a much larger sum.

On Communicating to the Gentlemen at Bengal the great want you wou'd be in of Money this season for the occasions of your Investment, they determined to consign to you two Lacks of Rupees by the British King instead of Fifty Thousand as they had before Intended.

Since the Date of our Letter to you of the 11th. April We have purchased some silver imported from Pegue, but all the Treasure we have yet been able to procure for you this season does not exceed forty Thousand Rupees and indeed the Great Dearness of silver here at present being 310 Rupees for 100 Pagos. will put it out of our power we fear to make any considerable addition to the above sum as Rupees are not to be had at any price, but we hope our Consignments in Pepper, Tin and other Things that are most likely to answer in China will amount to £50,000.

We have received a Letter from Mr. Dalrymple at Manilha acquainting us with the Situation of the Companys affairs at Sooloo, We intend ordering the First Ship Dispatch'd for China this Season to call there and shall then forward to Mr. Dalrymple the Account Sales of Sooloo goods by the Neptune as you have desired.

The Deptford arrived here from Bengal the 7th. of Last Month and having taken in her full Lading for Europe receiv'd her Dispatches the 5th. Instant.

We are much Concerned to acquaint you that our Honble Masters Ship Winchelsea was lost on the 20th. March on the Long sand as the Pilot was attempting to bring her out of the River of Bengal.

To John Smith Esqr.
Chief &ca. Council at Vizagapatam.

Gentlemen

We have receivd your Letter Dated the 17th. Last Month.

You will receive herewith the Remarks on your Investment sent up by the Cuddalore schooner. We desire you will be particularly attentive to the Improvement of the Ordinary Long Cloth as the No. 3 the Proportion of

which was near two thirds of what you sent us turnd out inferior to what was provided last Year of this sortement tho' we thought that very indifferent.

Of the Brown Cloth receiv'd by the Cuddalore upon its being deliverd to the Washers 66 Pieces of the Ordinary and 2 Pieces of the Fine were found Torn & with Holes in them. Mr. Stratton has examined whose mark they are Stamp'd with in order that you may call on the Merchants who provided this Cloth to pay for it and it will be deliver'd to their Gomartales at this Place on their account. Care must be taken that no Cloth be sent up in such Condition in future.

As your Merchants are not inclined to have their turnd out Cloth sent to Madras to be resorted you have our permission to take in such as you shall judge fit to be accepted of the Proper Dimentions at the abatement of ten pr. Cent.

The Musters of Chints were forwarded yesterday by a Country Snow, and we took the same opportunity of sending you a supply of ten Thousand Madras Pagodas and some stationary. The Invoice of the Treasure is now enclosed. That for the other articles was forwarded in the Vessell accompanied with a Letter from the Secretary.

You may order Gun Carriages to be made for the Guns lately sent for the use of your Settlement.

Mr. Raine is to be allowed 20 Pagodas a Month from the first of March which is to be in lieu of every thing & he and Mr. Haycock are to be paid 10 Pagodas each for their Travelling Charges.

You must with your next Letter send us a Compleat List of the Revenues at Vizagapatam specifying the Names of the Persons to whom the Farms are now lett and for what Term.

We have receiv'd your several Letters dated the 11th. and 29th. Ultimo and 4th. Instant, The latter acquainted us of your having prevail'd with the Bandarmalanka Merchants to undertake the provision of the present years Investment on the same Terms they did the last, which we hope they will strictly adhere to.

We foresee many Inconveniences that wou'd attend the proposal of the Merchants to have all their Cloths sent up and sorted at Madrass which therefore we cannot admit of. It must be sorted at Bandamalanka as before and for the Encouragement of the Merchants the turn'd out Cloth may be reexamined by Mr. Dolben who we doubt not will do the Merchants justice & who has our permission to receive such as he judges may with advantage to the Company be taken in at an abatement of ten pr. Cent & If you cou'd find any

other means of Gratifying the Merchants that woud not be attended with such Inconveniences as there proposal above mentioned, We should Willingly give them all reasonable encouragement to exert themselves in the Business of the Investment.

To prevent the Distress you find will attend the laying up your Rupees and being obliged to pay the Garrison in Pagodas, You will on Receipt hereof send to Madras by Cooleys with a small Escort of Seapoys the Rupees you have to this time collected and henceforward issue the pay to your Garrison as formally.

SIR

We have receiv'd your Letter dated the 16th. Instant with the several Proposals enclosed for Renting the Farms Dependent on Mazulapatam which are about to expire, and observe that although the Term was intended for five Years the offers now made are in General not higher than they lett for last Year. As therefore we find that the unsettled state of the Countries is at present an Obstacle to our Hopes of encreasing the Value of the Farms by extending the Term, We judge it will be most eligible to defer letting them for 5 Years untill the Disturbances are appeas'd, and for the present to lett them for one year only. As you are most intimately acquainted with the Characters and Circumstances of the Bidders We leave it to your Choise to fix on the most responsible persons, and hope that you will be able to prevail on them to give the same or nearly the same Rent they now offer and you may assure them of the preference at next time of letting the Farms provided they offer as much as others. We hope then the Tranquility of the Country will encourage us to extend the period to five Years.

As soon as you have in Consequence of these Directions fix'd on the persons to hold the Farms for the prest. Year you may put them in possession immediately advising us that there Cowles may be prepared and forwarded.

SIR

Having appointed you to the Chiefship of Cuddalore you will be pleas'd to repair thither as soon as possible and receive Charge of the Settlement from Mr. Calland.

Your principal attention must be the Improvement of the Companys Investment, The Cloths provided for the present Year have been contracted for with the Merchants, the Particulars of which you will be informed of by Mr. Calland who has been furnished with our full Instructions on this subject, We expect that the Merchants will be punctual in the observance of the Articles of there Contract to attone for there backwardness the last year and you must endeavor to prepare as many Bales as possible by September for an Early Dispatch.

Sadashevarow the Renter of the Cuddalore & Trevenduporum Bounds, and the Arrack Farm has of late been backward in the Payment of his Rents. The Arrears due for the two former he promises to pay of Immediately which you will therefore receive, In Regard to the Arrack Farm he alledges to have been a sufferer by it for some time on account of the Removal of the Military who were stationd at Cuddalore when he took the Farm in 1761 for a Term of 5 Years you will therefore without loss of time make enquiry & inform us of the state of that Farm and in consequence of his petition to us receive for the present what it may really seem to produce. When the resort of Military thither may restore it to its Former Value the Renter must make goods the Rents again according to the Terms of his Cowle.

There are two Godowns at Cuddalore belonging to Mr. Whitehill which have for some time past been occupied by the Company. On your arrival there you will survey them and inform us of their state, what may appear to be their Value and whether when a Factory is rebuilt at Cuddalore which is shortly intended, it may be necessary to take them down, that we may be able to judge if it will be most for the Companys advantage to purchase them, of Mr. Whitehill or to make him an allowance for the time they have been appropriated to their Use.

Rajah Moodillee having been employ'd as a ConeyCoply in the Storehouse at St. David upwards of Fifty Years and at present superannuated and in indigent Circumstances We have allowed him one Pagoda a Month from the 1st. April which you will pay him accordingly.

OF FORT WILLIAM.

HONBLE SIR & SIRS

We have receiv'd your favor dated the 23d. April, acknowledging the Receipt of our Letters by the Diligent Snow.

The Chief & Council at Vizagapatam acquaint us that the Plassey from Fort Marlborough arrived there the 1st. Instant having suffer'd much in a hard Gale of Wind after leaving the Coast of Sumatra, and as she was unable to make her Passage to Madras at this season they dispatch'd her to Bengal with the Packet she had for your presidency and the several Papers relating to the Ship & Cargo, We are glad to find they have had an opportunity of drawing upon us for near fifteen Thousand Dollars as it has been equally out of our power with your Honor &ca. to supply them with Treasure from hence, of which we acquainted them in answer to there application on this subject in their Letter to us by the Diligent Snow.

The President and Council of Fort Marlborough acquaint us in a separate Letter that after the Plassey had sail'd for Moco Moco, The Hougton arrived from China with Advices from the Supra Cargoes of their Intention to dispatch their Homeward Bound Ships to Manilha to Transport the Chinese from hence [*sic*] to Fort Marlborough and as they apprehend that the Increase of so large a Number a [*sic*] people will soon exhaust their store of Grain they are very pressing to be largely supplied by the first conveyances as you will observe by a Copy of their Letter to us enclosed. We hope the Rice sent them by the Lord Clive & Bute will be sufficient for their occasions untill We can have an Opportunity of giving them a further supply.

As the Gentlemen at Fort Marlborough represent the Plassey to be entirely unfit for the service of the West Coast & We have not any Employment for her here, We desire your Honor &ca. will dispose of her in Bengal.

We must repeat our application to your Honor &ca. for a supply stuff by the First opportunity and hope you will be able to send us sufficient for Packing four thousand Bales which we compute will be required annually for our Occasions.

Being also in Great want of Jaggery for the Companys Buildings of this Place, We desire you will supply us with three hundred Candies by the first opportunity.

The Great Occasion for money to supply the China Investment this season has induced us to accept of an offer of seventeen Thousand seven Hundred and sixty Arcot Rupees for Bills on your Presidency which we have granted this Day payable to Messrs. HONBLE SIR & SIRS

Since our last of the 4th. Instant we have receiv'd your favor dated the 10th. Last month.

We have already advised your Honor &ca. of the Northumberlands arrival the 2d. Last Month and have now the pleasure to add that the Worcester came in the 14th. & the Lord Holland the 15th. Instant. The Latter called at the Mauritius the 4th. June where she found the Middlesex from Bengal, the purpose of whose Destination thither you have no doubt been informed of from that Presidency. The Pigot also put in there the 8th. June the length of her Passage from Bengal having made the Touching at the Islands necessary for recruiting her store of water. On the Ships comeing in the Governor sent off a Letter excusing himself from giving the permission of the Port under Pretence of the Islands having been entirely exhausted during the Late War and his dailey expectation of a Large Squadron from Europe at the same time recommended their going to Bourbon.

But being already at Anchor Captain Richardson went ashore to make a point of being supplied with water which was all he wanted so far he succeeded and probably wou'd procure some little Refreshment.

They seem'd very Jealous permitting no one to go ashore except the commanders, and even they were obliged to return at night. The Lord Holland left the Islands the 9th. June.

By the Worcester came a Packet for your Honor &ca. which we now forward.

TO THE HONBLE HENRY VANSITTART ESQ^{R}.
PRESIDENT AND GOVERNOR &C^{A}. COUNCIL
OF FORT WILLIAM.

HONBLE SIR & SIRS

We have receiv'd your Letter Dated the 18th. of Last Month acquainting us with the arrival of the Plassey from Fort Marlborough and of your Intention to send the Diligent Snow thither with a supply of provisions.

By a Letter we have receiv'd from hence [*sic*] by the Leopard Snow dated the 3^{d}. May the Presid^{t}. &c^{a}. Council there acquaint us that by the purport of there Advices from Canton they had reason to expect a much more considerable number of Chinese than had been sent them which amounted to in the whole to only two Hundred and Fifty Five, and therefore they were no longer under the Apprehension of want of Grain for their support as they Imagined the supplies sent them by the Lord Clive and what they should be able to Collect on the Coast would be sufficient to Answer their Demands for the Current year since that time we have sent them a further supply of 1279 Bags of Rice by the Bute.

In the Packett by the Snow Leopard were transmitted to us some Authenticated Papers relating to an Error in the Accounts of the Ship Plassey, by which Captain Clews appears to be indebted to the Company 1236 Dollars, and the Gentlemen at Fort Marlborough further acquaint us that he must also refund 96. D. 2 s. on account of his Chief Mate M^{r}. Alenton, We now forward the said Papers to your Honor &c^{a}. with Extract of the Letter from Fort Marlborough relating to this Matter that you may receive the amount of Captain Clews.

The Leopard Snow put in at Bandarmalanka the 5th. Instant, Captain Panton alledges that he was obliged to bear away for want of Water & provisions and as he has reported the Vessell to be very Leaky We have ordered her to be repaired at Bandarmalanka and then to proceed to the Bay, as we have not at present any occasion for her service at the Coast.

We have already advised your Honor &c^{a}. of the arrival of the Northumberland the 2^{d}. Instant and the Worcester on the 14th. We have had the pleasure of seeing the Lord Holland the 15th. Instant, she called at the Mauritius the 4th. June and found the Middlesex there which had had the misfortune of springing her Mainmast. The Pigot also put in at the Islands the 8th. June, The Lenght [*sic*] of her Passage from Bengal having made the Touching there necessary for Recruiting her Store of Water, The Lord Holland Sail'd thence the 9th. June at which time they had receiv'd no late advices from France.

Our Milatary Storekeeper being made acquainted with the Deficiency of the Flints p^{r}. Sallamatty Snow mentioned in your Letter of the 31st. May we enclose Copy of a Report he has made to us in consequence.

As our consignments to China will we fear fall considerably short of the stock requir'd for the several ships of this season the Company not having sent out any Treasure from Europe, We have taken up the sums here undermentioned for that service and granted Bills for the same on your Honor &c^{a}. which we hope it will not be inconvenient as it is the only means by which we cou'd obtain this supply.

Sir

We have receiv'd your Letters dated the 10th. October 1763 and 23^{d}. February last acquainting us of the situation in which you found the Companys affairs on your Arrival at Sooloo last year, and of your Attention to

remain there another season in order to recover the large Ballances due from the Sooloo's and to take Measures for Maintaining the Company's Influence in the Country. As the Gentlemen at Canton Inform'd us they coud not send a ship to Sooloo as you had desired, We intended dispatching one early from hence this season to take in the Goods that might have been Collected for China, but as the First ship must proceed directly to Canton & the other two are to call at Manilha as by the Advices lately receiv'd from England, We find the Company do not approve of having there large ships employed on that Voyage untill it has been more frequented. We laid aside that Intention & have not been able to engage any other Vessell to send thither. The season is now so far advanced that if we could, there woud be little probability of gaining her passage at least, this is the opinion of those who are best acquainted with it.

We are sorry so many untoward circumstances have concurr'd to disappointed [*sic*] you of getting in the outstanding Debts at Sooloo & finally adjusting the Accounts but as you are so solicitous to return to England the next season, you have our permission provided you concert with the Gentlemen at Canton the necessary means for drawing the Company's Concerns from Sooloo pointing out to us in what manner this intricate Business may be best conducted & every particular relating to the outstanding Ballances.

GENTLEMEN

Par. 1. We have already wrote to you this season by the Pitt and two Maccao ships under Date the 11th. & 12th. April and 9th. May and therein acknowledged the receipt of your several Letters Dated 8th. November 1763 & 17th. & 25th. of February Last.

2^{d}. In our Letters abovementioned we acquaint^{d}. you of the little prospect We had of being able to obtain any considearable supply of Treasure for you this Season, We have lost no opportunity of purchasing & collecting all we cou'd procure, thoug[h] at a Dear rate, which to this time amounts to about three Lacks & nine thousand Rupees and as we Imagined an Early supply may be of the utmost consequence to your Investment we now consign the whole to you on our Honb^{e}. Masters . Ship Northumberland which arrived here the 2^{d}. Instant also several articles of Merchandize amounting together as P^{r}. Invoice F. enclosed to Pag^{s}. 157409 22. The Worcester arrived with us the 15th. & the Lord Holland the 16th. Instant.

3^{d}. We are sorry to Find notwithstanding our representation to the Hoñble Court by the Lapwing Snow which arrived before the Departure of the Northumberland that it does suit there Convenienience [*sic*] at present to

send out any Treasure from Europe, The Consignments to you from thence this season amount to £. 82700 of which about 64000 is in Woolens. This with what you may expect from the Different Presidencys may be about three Hundred Thousand Pounds Serling [*sic*] by an Estimate we have made which comes a Number in the Packet, which unless the Woolens meet with a ready sale will we fear be insufficient to provide a Cargoes for the ships expected in China this Year probably no less than thirteen, if the Pitt should not be employed in bringing the Troops from Manilha viz^{t}. Princess Augusta, Duke of Richmond Earl of Holderness, Norfolk Duke of Glocester, Vorcester, Lord Holland, Earl of Lincoln, Northumberland, British King, Lord Clive, Latham & Pitt.

4th. The whole amount of what we have hitherto been able to Provide here in Treasure amount to about £. 107500 to which by the Worcester and Lord Holland we may add a further sum of 12000 £ in Gold, and Rupees and although we have little hopes of it at present you may rest assured that we shall Lose no opportunity of Augmenting our Consignments being convinced of the Necessity of your being enabled if possible to reserve a stock in your hands to make purchase for the Ensuing year.

5th. Application having been made to us for the Loan of some Money to run at respondentia on Goods to China, We have sent to M^{r}. Anthony Sadleir P^{s}. 4200 and to Shamir Sultan P^{s}. 5000, at the Exchange of 312 Rup^{s}. p^{r}. 100 Pag^{s}. on their Bonds which are made payable to you in Tales at the rate of 307 A. R^{s}. p^{r}. 100 Tales with 10 p^{r}. Cent Freight & premium, Enclosed is a Manifest of the Goods now laden on this acc^{t}. which you will be pleased to deliver to the persons to whom they are respectively consigned, and from whom you are to receive the amount of the Bonds which are also enclosed at the Expiration of Thirty Days after the arrival of the Ship.

6th. Agreable to the request made in your Letter of the 17th. Febry, We send you the assays made in our Mint on each sort of Rupee now consigned to you which shall be our Constant practice in future.

7th. The Different exchange of Rupees mentioned in the Invoice by this Ship is according to the Prizes at the Time when each sum was purchased the last sum is sett down at 350 that being the Exchange established between the three Presidencys and therefore at that rate the Companys Rupees are always brought to acc^{t}. when recv̄d. for Bills Granted on Bengal or Bombay, there real value here ought to be estimated much higher.

8. As the cotton consigned to you by the Northumberland to save time & the Exchange of Landing was shipp'd from a Country Vessell in the road and only a few Bales of it coud be weighed from which the rest were calculated upon an Average, We hope Capt^{n}. Mitford will be no sufferer on this acc^{t}. as from his diligence & Attention here We are persuaded there will not be any Deficiency that his care can prevent.

9th. We had intended that one of the Ships from Europe shoud call at Sooloo but our Hon̄ble Masters have recommended that small Ships or Vessels only be employed on this Voyage untill it is more Frequented, We therefore are determined not to send one of the Europe ships there this season we have not been able to meet with any small Vessell proper for that service and on advising with those who are acquainted with the Track, We find the season is now so far advanced that there would be little probability if we coud engage one, of her saving her passage.

10. M^{r}. Richard Brickendon a Senior Merchant on this Establishment having long been in an ill state of health has obtained our permission to go to China for a Change of Air, he embarks on the Northumberland & if he shoud not reap the Benefit of it that he expects from China he has our leave to proceed to Europe in one of the ships from thence.

11th. The Worcester & Lord Holland will also proceed as soon as soon [*sic*] as they can be in readiness and are to call at Manilha as you will be advised in a separate Letter from the other Department.

12. By the Northumberland came a Packet from our Honble Masters which we now forward together with several other Papers according to a List in the Packet.

To Mr. Alexander Dalrymple.

Sir

Inclosed is Duplicate of a Letter we wrote to you the 29th. Last Month by the Northumberland to China. Notwithstanding the permission therein given you to return this season to Europe on reconsidering the state of the Companys concerns at Sooloo and the hopes given them of the Great advantages to be expected from that adventure we think it incumbent on you to defer your Departure untill the outstanding Ballances have been collected in. We therefore recommend to you to remain untill this is accomplish'd after which you are at liberty to return to England whenever you shall see proper.

You have no doubt been Inform'd by the Gentlemen of Council at Canton of the Great Loss sustain'd by the Sooloo Goods dispos'd of last year. This circumstance we think renders you attending to the Instructions we now send you the more necessary that the Company may be satisfy'd you have done all in your power to adjust the Accounts of this Adventure to the best advantage after all the disappointments with which it has been attended.

Honble Sir & Sirs

Para 1. Enclosed is Duplicate of our last under Date the 18^th^. Ultimo & We have since receiv'd your Favor of the 15^th^. June.

2^d^. The Northumberland, Worcester, and Lord Holland whose arrival from England we advised in our Letters of the 4^th^. & 18 of July have proceeded on their voyage to Canton the Former the 31^st^. of Last Month and the other two the 6^th^. Instant and we have now the Pleasure to acquaint your Honor &c^a^. with the arrival of the Following.

Caernarvon from Madiera for Coast & Bay the 1^st^. Instant.

Duke of Glocester for China the 3^d^.

Devonshire from Madeira for Coast & Bay the 4^th^.

Earl of Lincolm for China &
Vansittart for Coast & Bay } the 7^th^.

3d. We observe there are six ships appointed this Season to bring out the Consignments for your Presidency of which the Honble Court of Directors acquaint us they have good reason to believe only two or three at most can be laden home from your side and they propose that the supernumary ships (except the York which is to be the Annual ship to China) be employed in Carrying home the Investments from this Place & Bengal.

4. The Ships remaining of Last Year for this side of India are the Pocock, Bute & Middlesex and four are appointed for the Coast & Bay this season, of these seven ships two will be returned to England from hence & we imagine the Gentlemen at Bengal will not be able to provide more than three, so that we shall probably have two ships on hand, besides such destin'd to your side as are directed to be considered as Coast & Bay ships.

On a supposition that of the Ships destined to Bombay there will be three more than can be returned with cargo to Europe five will be brobably [*sic*] be remaining on hand this season, it becomes therefore expedient to consider by what means they can be employed most for the Companys Advantage & consistently with their Directions of this season a Copy of which comes enclosed.

If no other service shoud offer for the ships on your side, The sending them to China wou'd be the most eligible means of employing them if the Necessary stocks can be provided for that purpose. We therefore in that Case beg leave to recommend to you the provision of Goods to as large an amount as possible, as we are quite uncertain of being able to procure any considerable Quantity at this Place and that you will also take all opportunities of drawing upon us if it can be any ways assisting to you in this respect & we hope it will be equally convenient to the Gentlemen at Bengal if you shoud make any drafts upon them, to whom we have also wrote on this subject and shall be glad to co-operate in any measure that may be judged most elegible on this occasion as soon as we hear from them we shall write to you further.

Shou'd you determine in the mean time to send any ship or ships round to the Coast We desire the supply of Timber and Plank we wrote for with as many more of the same Dimensions as may be procurable be sent us, & that their Departure be as early as possible so as to arrive here the beginng. of Janry. as in that Case all the French Remaining here may be embarkd on them for the Islands & the said ship or ships may afterwards be employed at Madagascar in purchasing slaves for the West Coast so as to return [hither] or to Bengall the latter end of next year.

By the 56th. and 57th. Paragraphs of our Honble Masters commands to us dated 30th. December 1763 Copies whereof are now forwarded you will observe they have made a Standing order for the annual Provision of Treasure & goods for the China Market, We shall therefore Depend on your Honor &ca. giving us all the Assistance in your power for that purpose the Provision at Merchandize at this place being very precarious as we have already observed which as [*sic*] also been the case in regard to silver this Year, as the large supplies sent to China last season and the year before has entirely drained our settlement of that Article.

9. The Gentlemen at China expect to have twelve ships there this season and as the Company do not find it convenient to send out any Treasure We have exerted all our endeavors to supply the occasions of that Investment from hence, to this time we have consigned thither in Treasure and Merchandize to the amount of three Lack of Pagodas which with what will be receiv'd with the Latham from your Settlement the British King Ben [*sic*] Bengal, the Lord Clive from Bencoolen, and the Consignments from Europe which are only in Merchandize will we hope enable Gentlemen there to provide Cargoes for them.

10. Having tenter'd to Messrs. Pelling & De Fries the Bill of Rupees 79-3-30 enclosed in your Letter of the 15th. June for Customs on Account of

Goods imported at Bombay by Mr. Hatfield, they alledge that they have already been charged by him 110 Rupees on that Account. Copy of their Letter to our Secretary on this occasion comes enclosed.

11. By the Devonshire came a Letter for your Honor &ca. which we now forward.

No. 88.

TO THE HONBLE HENRY VANSITTART ESQR.
PRESIDENT AND GOVERNOR &CA. COUNCIL
OF FORT WILLIAM.

HONBLE SIR & SIRS

We have been favour'd with your Letter of the 25th. June.

The Northumberland, Worcester & Lord Holland whose arrival from England we have already advised you of have proceeded on their voyage to Canton the Former the 31st. Last Month and the other two the 6th. Instt. and we have now the pleasure to acquaint you with the arrival of the Following.

Caernarvon from Madeira for Coast & Bay the 1st. Instnt.

Duke of Glocester for China the 3d.

Devonshire from Madeira for Coast & Bay the 4th.

Earl of Lincolm for China & Vansittart for Coast & Bay } the 7th.

We observe there are six ships appointed this season to bring out the Consignments for Bombay of which the Honble Court of Directors acquaint us they have good reason to believe only two or three at most can be laden home from that side and they propose that the supenumary [*sic*] ships (except the York which is to be the Bombay & China Ship) be employed in Carrying the Consignments from this and your Presidency.

The Ships remaining of last Year for this side of India are the Pocock, Bute and Middlesex, and four are appointed for the Coast & Bay this season of their seven ships two can be returned to England from hence in October & February and if your Honor &ca. shoud not be able to provide for more than three there will be two ships on hand besides such destined to Bombay as are directed to be considered as Coast & Bay Ships.

On a supposition that of the ships destined to Bombay there will be three more than can be returned with cargoes to Europe, five will probably be remaining in India this season, it becomes therefore expedient to consider by what means they can be employed most for the Companys Advantage.

The Dispatching to China such as cann [*sic*] be returned with Cargoes to Europe is a measure recommended by the Company and will certainly be the most eligible, if the Necessary Stocks can be provided for them by the 56th. & 57th. Paragraphs of our Honble Masters Commands to us dated 30th. December 1763 Copies of which with some other relating to their shipping comes enclosed, you will observe they have made a standing order for the annual Provision of Treasure and Goods for the China Market. The Procuring of the Former at this place being very precarious as well as Treasure, since our settlement has been drained of the large supplies of silver sent to China last season and the year before, We have appointed the Gentlemen at Bombay that we depend on their giving us all the Assistance they are able in this respect, desiring they will take all opportunities of drawing upon us if that will be a means of supplying the China Markett, and We hope it will be equally convenient to you if for that purpose they shoud make any Drafts on your Presidency.

Shoud the Gentlemen at Bombay determine to order any ship or ships round to the Coast, We have desired that a supply of Timber & Plank may be sent us & that their Departure be as Early as possible so as to arrive here the beginning of Janry, as in that Case all the French remaining here may be embarked on them for the Islands and the said ship or ships may afterwards be employed at Madagascar in purchasing slaves for the West Coast so as to return hither or to Bengal the latter end of the year.

If the Pocock shoud return from Manilha in time we intend dispatching her to Europe in October otherwise we shall detain one of the ships of this season for that purpose. We hope the arrival of Intelligence from Manilha will soon enable us to determine.

The Gentlemen at China expect to have twelve ships there this year and as the Company do not find it Convenient to send out any Treasure We have exerted all our endeavors to supply the occasions of that Investment from hence, to this time we have consigned thither in Treasure and Merchandize to the amount of three Lacks of Pagodas which with what will be receiv'd by the British King from your settlement the Latham from Bombay, the Lord Clive from Bencoolen and the Consignments from Europe (which are only in Merchandize) will we hope enable the Gentlemen there to provide Cargoes for them.

We have a sufficient Quantity of Salt Petre remaining for our October ship. For the two ships we purpose sending home in February and September next year, and the occasions of this Settlement We have occasion for two Hundred & Fifty Tons more which we request you will supply us with by the Earliest opportunities.

We must here observe that the last supply of Salt petre we receiv'd was so full of Dirt that it is not only attended with a Considerable expence in refining but a Great Loss also by wastage. We therefore request to be supplied with better in future, otherwise What we have occasion to reserve for the Manufacture of Gunpowder will by no means answer that purpose.

The Caernarvon having landed her Consignments of Madeira Wine which is all she had on board for this Presidency now proceeds to you and We forward by this opportunity two Packets receiv'd for your Honor &c^{a}. by the Duke of Glocester and Earl of Lincoln with sundry Papers agreably to the List enclosed.

The Gentlemen at Fort Marlborough will have occasion for ten Pipes of Madeira Wine & as it is reasonable we shoud contribute equally towards the supply of that Settlement, We recommend to your Honour &c^{a}. to forward to them that Quantity if an opportunity should offer and we will replace five of them from hence.

There being 122 Coils of Cordage on board the Duke of Glocester for your Presidency We have orderd them to be transferr'd in equal proportions a board the Caernarvon & Devonshire an Invoice whereof comes enclosed.

In our Letter of the 14 June We mention'd that we shoud be in want of Packing stuff annually for 4000 Bales. Inclosed is an Indent specifying the Quantity necessary for that purpose Which we request you will supply us with by the first opportunity.

TO THE HONBLE HENRY VANSITTART ESQR.
PRESIDENT AND GOVERNOR &CA. COUNCIL OF FORT WILLIAM.

HONBLE SIR & SIRS

Our President has Communicated to us a Letter he receiv'd by the Devonshire from Mr. Secretary James dated 21st. January intimating that the Secret Committee receiv'd Information upon the point of the Caernarvons Departure from the Downs that sundry Goods had been Clandestinely laden on board that ship and as it was then too late to make an Effectual search by taking out her Cargo, directing that Measures might be taken for that purpose on her arrival here in Consequence of which the upper searcher of the Sea Gate and master attendant of this Place by Private orders from the President repaired on board the Caernarvon and examined the ship as far as they cou'd but without being able to make any discovery.

We are of opinion it will impossible [*sic*] to make an Effectual search except by taking out the ships cargo but as that woud be attended with many Inconveniencies at this Place particularly as she laden entirely for your Presidency, and it woud retard the Departure of the two China ships when the season is already so late at the same time that you woud be deprived of the Milatary she has on board for your Presidency perhaps another month, We have thought it most consistent with the Companys Interest not to detain her and therefore give you this Information that your Honor may take the necessary steps in Consequence upon the ships arrival with you. Enclosed is Copy of Mr. Secretary James Letter to our President abovementioned also of the Presidents Instructions to the Persons appointed here to make the search with their report in Consequence.

HONBLE SIR & SIRS

We wrote to you by the Caernarvon under Date the 13th. Instant a Duplicate of which accompanies this and have since receiv'd your favor of the 16th. Last Month with the several papers enclosed of the Greyhounds Packet from Fort Marlborough.

The Devonshire having landed our Consignments for this Presidency we have directed her to call at Vizagapatam with some Treasure and stores for the supply of that settlement, from whence she is to proceed to you with all convenient dispatch.

Inclosed is an account of sixty two Coils of Cordage transferrd from the Duke of Glocester to the Devonshire for your Presidency of which we advised your Honor &ca. in our Letter by the Caernarvon.

We therein mention'd also the bad condition of the Last supply of Salt petre we receiv'd, and by a Report since made to us from our Committee of Works it appears that in pulverising 240 lbs. there arises a Loss of no less than 109 lbs.

As the Packet we receiv'd from Madeira by the Devonshire contain'd the Invoice and Bills of Lading of the Madeira Wine ship'd on board her for your Presidency we were under the necessity of opening your Packet to look for the Invoice and Bill of Lading of our Consignments which we have found and replaced them with those enclosed in our Packet for your Honor &ca.

We transmitted with your Letter of the 13th. Instant an Indent of our Packing stuff we desired to be supply'd with annually for four Thousand Bales a Duplicate of which now wait on you with several other Papers according to the List of the Packet.

TO THE HONBLE ROGER CARTER ESQR.
PRESIDT. & GOVERNOR &CA. COUNCIL OF FORT MARLBRO.

HONBLE SIR & SIRS

We have rec'd your several Letters dated the 4^th. & 12^th. of Febry. and 3^d. May.

The Plassey having fallen to Leeward put in at Vizagapatam from thence proceeded to Bengal where the President & Council acquaint us they shall sell as you have recommended, We have left it to them to dispose of the Wares & Military Cloathing as you have directed and they acquaint us they will demand of Captain Clews the amount of what you represent him to be indebted to the Company.

We are advised this season by our Honble Masters of their having made Choise of an Engineer for your Presidency otherwise we shoud have endeavor'd to have sent you M^r. Call whenever he coud have been spared.

An Account of the Deficiency of the Ophium mentioned in your 5 Paragraph of the 4^th. Febry. was settled with Captain Smith of the Clinton on which ship it was receiv'd here, who was to account for it with the Company in England, the Deficiency here appear'd to be 12 Maund 18 lbs. $\frac{1}{3}$^sr. Valued at Pagodas 201–16–18. We shall in future have the Consignments we may receive for you lodged in seperate Godowns to prevent the Inconveniencies pointed out in your Letter and never open the Packages but in Cases of necessity.

An account of stores supplied and Cash advanced to Captain Foster at this Place for the use of the Honble Companys Ship Earl Temple was Transmitted to Europe by the Fox in November 1762.

We have ordered our Account Current with your Presidency to be made out in a more explicit manner than the last sent you as you have desired, and it shall be forwarded by the first opportunity.

The Debt contracted by M^r. Henry Russell at Malacca was not deducted out of the salary and Diet that Gentlemen receiv'd when at Madras.

The Annual Indent recd. with your Letter of the 4^th. Febry. shall be duely complied with. As the Number of Chinese sent you from Manilha have fallen so short of your expectations, We hope the supplies of Grain already sent you this season has been sufficient.

The Bond entered into by Mess^rs. Wyatt and Hall for Pagodas 1550–24 was deliver'd up to M^r. Hall in March last in Consequence of the orders we had receiv'd from the Company.

Mr. Ardley has paid into Cash the sum of Pags. 125 being the Difference pointed out by your Honor &ca. on his having brought to acct. the Dollars advanced him here on his Departure to Fort Marlbro at the rate of 15 instead of 16 for 10 Pags. for which we shall credit your Presidency enclosed is a Copy of the Minute of Consultation on this occasion explaining the Manner by which this Mistake arose.

Our Consignments to China this season have been so much larger than we coud have expected that We hope there will be sufficient for compleating the stock of the Lord Clive with the several other ships they may have to provide for.

The Leopard Snow having arrived at Bandarmalanka in a Leaky condition We ordered the necessary Repairs to be given her there and then to proceed to Bengal.

The Greyhound Snow has been some time arrived at Bengal the Gentlemen have forwarded to us the Musters of Gold you mention to have sent by her which have been deliver'd to our Assay Master whose Report shall be communicated to you when deliver'd in.

Whenever application is made to us on account of Canvass supplied the Luconia at Batavia by his Majestys Ship Panther it shall be replaced out of our Stores. The Bill Mr. Burnett drew upon us for Rix Dollars 2500 advanced by him to Captain Watson on account of the Honble Company's Ship Revenge has been duely accepted & paid as well as all those which your Honor &ca. have drawn upon us. In future we beg leave to recommend that some time may be given for the payment of Bills as we observe all those you have lately drawn upon us were made payable at sight which we had it not in our power so immediately to comply with.

As the Letters to us by the Greyhound were opened by the Gentlemen at Bengal we have no doubt but what they will pay a proper attention to what you recommend concerning your Bank and the Money lent at Respondentia as we ourselves shall do on every occasion.

In consequence of your Letter to us of the 3d. May we have settled with the owners of the Luconia for the 46 Chinese transported from Manilha to your settlement at 800 Pagodas which has been paid and your Presidency debted for the same.

We take this opportunity of supplying you by the Maria Marcellina with ten Pipes of Madeira Wine of which 5 were of the Consignment for Bengal and five of our own. We have therefore Credited Bengal presidency for the half and Charged your Presidency for the whole at 100 Pagodas pr. Pipe which is the same we pay ourselves.

We also send in this ship one Male named Andrew and two female slaves Flora & Rosa in hopes they may be of some use in your Plantations.

Cloathing for 16 Havildars 20 Naigues & 214 Seapoys is sent in this ship amounting to Pagodas 339–4–0 according to the Invoice in the Packet.

Having a Larger quantity of Redwood of the China Sort on hand than you Indented for and as the Earl of Lincoln woud otherwise have been empty, We chose to send it on her rather than lett it remain here till next season, and as it may be some addition to your stock, although it shoud not sell to much advantage.

We have permitted Messrs. Russell & Ross to lade on the Lincoln 74 Bales of Cotton the value of which being Pagodas 1790 they have taken up at Respondentia at the exchange of 312 Rupees pr. 100 Pagodas payable to you in Tales at the Rate of 307 A.Rs. pr. 100 Tales with 12 pr. Cent Freight & premium at the expiration of thirty Days after the ships arrival at Canton. A manifest of the Cotton with the Respondentia Bond of those Gentlemen is enclosed.

In the Packet comes an abstract of the consignments sent to you from hence this season amounting in the whole to Pagodas 334438—33—62. PRESIDENT & GOVERNOR & COUNCIL OF FORT WILLIAM.

HONBLE SIR & SIRS

In our Letter by the Vansittart Dated the 30th. Augt. We advised of our having forwarded by her a part of the Consignments of the Duke of Albany for your Presidency, and we now take the opportunity of sending one Hundred more of her Bales by the Ship Luconia, for which Freight is to be paid at Bengal at the rate of 5 A. Rupees pr. Bale. As the Transporting most of the Consignments from this ship without Landing them here makes it difficult for us to bring them on our Books, We desire your Honor &ca. will credit acct. Current London for the whole amount of the Invoice and in Case any are detaind for want of a Conveyance We will give you credit for the same for which purpose We have taken a Copy of the Europe Invoice, the original of which is now forwarded and the only paper remaining with us is the Bill of Lading.

A part of the private consignments that came out by the Duke of Albany for your Presidency were forwarded by the Vansittart and some others have been put on board the Luconia according to a List enclosed.

Although we mention'd in our Letter by the Vansittart to have sent by her three Chests of Coral that came out for Bengal in the Duke of Albany we find that only one coud be put on board her, the other two not being at hand and having no prospect of sending them to you this season on a Europe ship they will be detain'd here untill advices are receivd concerning them from the Persons at your Presidency to whom they are consigned.

Sir

We have receiv'd your Letter of the 28^th^. August.

Enclosed is Copy of the Directions receiv'd from the Company this Season relating to the taking in of the turn'd out Cloths at an adequate abatement for any Defect in quality. They have been induced to recommend this Practice from observing that the Goods under that Demonation [*sic*] sent home by the Fox sold at their sales for nearly as much as the Cloths of the proper Quality, indeed they were but little inferior to them, and as it cannot be their intention to subject the Investment to a Debasement by encouraging the receiving of the Turned out Cloths which you apprehend will be the necessary consequence at Bandarmalanka, We shoud be glad if you would point out to us any Method that may serve to fulfill the Companys Intentions without producing that Effect. In future you will note particularly at the Foot of your Letters what quantity of turnd out Cloth you have on hand.

We woud not have the valuation of the Turned out Cloth fixed by the Determination of one person only but whenever you go to Bandarmalanka it may be done under your Inspection.

The Chay Goods are by no means comprehended in the order regarding the turn'd out Cloth. We are much concern'd to be inform'd they are so exceptionable this Year and much recommend to your particular attention to oblige and encourage the Merchants to keep up to the Muster both in quality & Colouring.

Your Indent for stationary has already been complied with and we only wait an opportunity to forward the Woollens.

You will be pleased to provide & send up as soon as possible the following Cloths wanted for the Presidency of Fort Marlborough.

To JOHN PYBUS ESQR.
CHIEF AT MAZULIPATAM.

SIR

We have had under Consideration your Letter Dated the 14th. September, on the subject of the Outstanding Debts at Mazulipatam and are much concern'd to observe so considerable a Ballance due from Meer Bauker as Rups. 193094 on Account of the Nizampatam Farm & of which only Rupees 43315–6–2 is thought to be recoverable.

A considerable part of this as well as the other Ballances were advised of and deemed irrecoverable in Mr. Fairfield time except that of Mowa Comrauze which he was thought to be in Circumstances to pay though unwilling, If therefore upon enquiry this shoud appear to be the Case at present you must endeavor to recover it, and be attentive to do the same with respect to the other Ballances as opportunities may offer and to this end they must constantly be carried forwards on your Books although it is manifest the Salt Farms have not of late years produced the Rent they were lett for.

Notwithstanding any private agreement that might have been made between Meer Seid Hussein and Timmagee regarding the Management of the Mazulipatam and Ponracca Salt, we regard them by the Tenor of their Cowle to be equally responsible for the Ballance incurred when they had the joint management of that Farm. We think it reasonable to allow them for the Losses sustain'd by the Gale of wind in December 1762 amounting by the Estimate receiv'd with your Letter of the 22d. of that month to Rups. 15181–4 which being deducted from their Ballance you will require payment of what may then remain due from both or either of them as they may be in Circumstances to pay it.

You may advertise for reletting this Farm from the Expiration of the present Cowle, for the Term of one, two, three or Five Years as you judge may be the most benifecial to the Farm, and send us the proposals you may receive in Consequence, When we find it necessary for any Troops to move your way We shall hope to put a stop effectually to the unreasonable exactions of the Zemedars for Duties on the Salt passing through their Territories in the mean time We can only recommend to you to use every prudent method in your power towards remedying this Inconvenience, which cannot but tend so much to the prejudice of the Farm.

You will constantly advise us what Ballances may be remaining on the Farms at Mazulipatam when the Cowles expire as they shoud be immediately ascertain'd and measures taken for recovering the same if the Renter shou'd be in circumstances, and the produce be found to answer the Rent they were lett for.

We have also receiv'd your Letter of the 28th. of September with your sentiments on the practice recommended by the Company for taking in turnd out Cloths in General at an abatement, concerning which we shall shortly send you our further Directions when we take under Consideration the provision for the ensuing Years Investment at this Place and the several subordinates.

You will settle with Moodu Kistna for the time elapsed of the present year & receive the produce into your Cash, in the month of Jan^ry^. you will order a Jamadundy [*sic*] or statement of the Revenues, according to the Country Custom to be made out by the Amuldar to enable us to judge of the Produce & of his Management.

That a proper Example may be made of the Persons apprehended & represented to the President as Guilty of Coining & paying away bad Pagodas We desire you will take the opportunity of a returning Escort of seapoys to send them hither, the false Coin found upon them with the Implements of Coinage sh^d^. be made us seal'd and attested by the proper Witnesses.

GENTLEMEN

We have receiv'd your Letter Dated the 17th. Last Month, enclosing the accounts of your Settlement for September whereby we observe that you have charged only Invoice Price for the Stores disposed of in the Course of that month. The Cable Mr. Dolben was supplied with is worth at least 80 pr. Ct. advanced according to the present Demand of Naval Stores. The Companys Stores at this Place for some time past have not been sold for less than 50 pr. Ct. some at 100 and you must be careful in future always to Charge an advance on the several articles as they may be in demand 30 pr. Ct. is the least you shoud ever Charge.

As we have not at present an opportunity of conveying to you a supply of Cash from hence We have directed Mr. Pybus to send you from Mazulipatam what he may be able to spare from his own occasions.

You will receive herewith the Remarks that have been made on the Cloths lately sent up of your Investment. It is with pleasure we find there is an Improvement in the quality and We hope we shall hereafter have equal reason to be satisfied with the Quantity provided at your Settlement, a matter that merits your most serious attention, as well as the curing of the Cloth of which there is much reason to complain. Formerly Vizagapatam never furnished less than six Hundred Bales yearly, and unless that Quantity can be hence forward provided, the advantages of the Settlement will hardly be equivalent to the Expence of Maintaining it.

Toward the Close of the years Investment We shall expect to have your opinion of the Conduct of the merchants to guide us in our Directions for your renewing the Contract for the next year and that no time be lost in carrying on the Investment.

Mr. Charles Smith when he was at Madras having represented that your Bales for want of Screws to press them were of a Larger Size than those made up at this Place, and therefore required a greater Quantity of Packing stuff. You have our Permission to continue the same Packing Charges as have been hitherto allowed at your settlement, at the same time we expect that the Gunneys are of the best sort, those made use of for the Bales lately receiv'd were so thin and bad, that they required great Repair before they coud be shipp'd off for Europe.

Before Mr. Calls arrival with you We woud have your Opinion of the Apartments and conveniencies that may be necessary in the Construction of the new factory House in consulting with the Engineer on this occasion, and the necessity of additional Repairs to the Fortifications at Cuddalore, you must consider the advantages to be expected from your Investment, for unless it can be extended and Improved which from the conduct of your Merchats for two years past there seems little room to hope for, it will not be worth while to put the Company to the Expence of repairing them and we apprehend your Investment will still labor under greater Disadvantages when the French return.

As you think little Dependance can be placed in your present sett of Merchants if any other shou'd be willing to undertake the Investment at your Settlement the ensuing year on reasonable Terms you will acquaint us with their Characters and Circumstances that if favourable, they may have the preference and It will be necessary to think of Drawing in the Merchants

October We find the highest offers for the three Farms as follows.

Those of Abdul Hussein for the Pettah Juncan for three Years at Rupees 20,000 pr. Annum.

Those of Meer Seid Hussein for the Mazulipatam & Ponracca for three Years at Rupees 60,000, the First, 65,000 the second & 70,000 the 3d. Year and Those of Rajah Harry for the Narsipore Town at Rupees 2,100 for one year.

We are sorry to observe the offers for the Pettah Juncan are so very short for the Term of three years of what was last year given only for one You will enquire into the Reasons for such a Decrease in the Juncan & if it appears to you that the value is so much lesstened put Abdull Hussein in possession. We believe the Salt a very precarious and Dangerous Farm and therefore consent to accept Meer Seid Husseins offer. The Offer for Narsipore Town being equal to last year may also be accepted.

As Abdul Hussein is a new man you will be attentive to his Management and see that the Kists are duely paid.

You will observe by the Remarks sent with our Letter of the 1st. November on the Cloths from Bandarmalanka that the Inferior Numbers only of the ordinary and Midling were equal to Muster. Those of No. 1 were defective and must be improved in future.

You have our permission to repair the Hospital according to the Estimate transmitted to us of the Expence but we must consult with the Engineer before giving any orders relating to the Works which Will hardly answer the Cost of Repair.

Some orders have been dispatch'd to you from the other Department which we imagine had not reach'd you when your last Letter came away as they make it necessary for us to defer complying with your request to come to Madras.

SIR

We have rec'd your Letter Dated the 3d. Inst.

The Northern Investment having faild so much of late we have some hopes of extending it by getting a Quantity of Cloth provided at Ingeram. Mr. Dolben now proceeds thither on this service and as we may not all times be able to furnish him from hence with the supplies of Cash he may be in want of to carry our Intentions into execution, you will assist him from time to time on his application with such sums as can be spared from your own occasions.

As it has been represented to us that having the Long Cloth ordinary of 14 Punjums and at 34 Pagodas pr. Corge and encreasing the Long Cloth Fine of 24 Punjums from 60 to 62½ Pagodas pr. Corge may be a means of increasing the Investment without prejudice to the Manufacture, We have empowered Mr. Dolben to make a Contract on those Terms if he thinks it can be effected with a greater probability of success than the Method now in practice. If you judge it will answer also at Bandarmalanka, you have our permission to proceed on the same Plan taking care not to interfere with the Merchants who may be employed at Ingeram and Mr. Dolben has also our Directions to avoid the

same with your merchants at Bandamalanka and we recommend that when any new Merchants offer themselves as well as on all other occasions where it may be necessary the Residents consult with each other to prevent any misunderstanding between the two Factories to the Prejudice of the Investment.

TO MR. GEORGE DOLBEN.

SIR

The progress of the Nortward Investment having been much impeded since our endeavors to improve the Manufacture of the Long Cloth by increasing the Number of Punjums, and requiring them to be of the full Lengths and Breadths ordered by the Company, it becomes necessary to try every possible means of extending it from the great Trade carried on at present at Jaggernautporum by the Dutch and formerly by the French at Yanam we are willing to see what may be done in that neighbourhood and have therefore resolved to send a person to Ingeram to make the Tryal.

The knowledge and experience you have had in this Branch during your Long Residence to the Northward and the satisfaction you have given us in your Conduct of the Investment at Bandarmalanka has induced us to appoint you to this Service. You will therefore proceed to Ingeram as soon as possible and after obtaining all the Information you are able how far the making an Investment there may appear practicable, acquaint us immediately with the Result of your Enquiries.

But as no time shou'd be lost in attempting an Investment at Ingeram If you think the Plan you have recommended of having the Long Cloth ordinary of 14 Punjums at 34 Pagodas pr. Corge & increasing the Long Cloth Fine of 24 Punjums from 60 to 62½ Pags. pr. Corge can be effected with a greater probability of Success than the Method now in practice, you have our permission to proceed in it without Delay.

If this project is likely to be attended with success we may hereafter Determine to build a Factory house at Corinja near Ingeram but this we would Defer untill we can judge of your success as well as of the most convenient spot for making a Factory, which shoud be so situated as to be convenient to be fortified if hereafter it shoud be thought necessary; in the mean time you may reside in the old Factory House at Ingeram to which you may give such temporary Repairs as will make it barely habible. during your Residence there, and the Materials may afterwards be applied to the new factory House.

As Upparah from its neighbourhood will naturally fall under your Department, and the expense of Cooley hire to Vizagapatam will be thereby saved which was formerly paid and must always be a Tax on the Investm. We shall write to the Gentlemen there not to make any new Contracts with the Upparah Merchants.

You must take care not to interfere with the Merchants that may be employed at Bandarmalanka and when any new Merchants offer themselves as well as on every other occasion where it may be necessary you are to consult with the Resident at Bandarmalanka to prevent any misunderstanding between the two factories to the Prejudice of the Investment.

Mr. Pybus the Chief at Mazulipatam shall be directed to supply you from time to time with what Money you may have occasion for and he can conveniently spare and we have ordered twelve Thousand Madrass Pagodas to be deliver'd to you with an Escort of seapoys. Your accounts are to be transmitted to us every month.

You are to charge fifty Pagodas for your Travelling expences to Ingeram where you are to have the same allowance and be at present on the same Establishment as at Bandarmalanka.

We have appointed Mr. Stonehouse your assistant who is to receive ten Pagodas a month for his Diet allowance and you are to pay his Charges overland

If you can find means to gett off any Quantity of Broad Cloth at Ingeram you will acquaint us that we may supply you accordingly.
